

# PROPOSED AGENDA: DAY ONE

| Block       | Time        | Type  | Title   |
|-------------|-------------|---|---|
| 8:45-9:00   |             |   | Welcome   |
| 9:00-9:30   |             | Plenary Lecture                                     | The Evolution of PGT-A  |
| 9:30-11:00  | 9:30-10:00  | Session 1: PGT-A in ART                             | PGT-A "in house", is it safe and cost effective?              |
|             | 10:00-11:00 |   | PGT-A as QC for IVF methods                                   |
|             | 11:00-11:30 |   | Differences in amplification methods for PGT-A                |
| 11:00-11:30 |             | Coffee Break  |   |
| 11:30-13:30 | 11:30-12:00 | Session 2: Progress in PGT for Inherited Conditions | Strategies for PGT-M for de novo mutations                    |
|             | 12:00-12:30 |   | PGT-M for Borderline Indications                              |
|             | 12:30-13:00 |   | PGT for structural rearrangements (PGT-SR)                    |
|             | 13:00-13:30 |   | PGT for multiple genetic diseases                             |
| 13:30-14:30 |             | Break   | Lunch and POSTER SESSION                                      |
| 14:30-16:00 |             | Session 3: Abstracts                                | <b>15 min per each abstract x 6</b>                           |
| 16:00-16:30 |             | Coffee Break  |   |
| 16:30-17:00 |             | Session 4   | Endometrial Receptivity, what time is ideal time to transfer? |
| 17:00-17:30 |             |   | Prospect of PGT for epigenetic inheritance                    |

# PROPOSED AGENDA: DAY TWO

| Block       | Time        | Type   | Title  |
|-------------|-------------|--|--|
| 8:00-8:15   |             |  | Summary highlights from day one                            |
| 8:15-8:45   |             | Plenary lecture  | Origins of meiotic and post mitotic aneuploidy?            |
| 8:45-10:45  | 8:45-9:15   | Session 5: Mosaicism and Segmentals  | Impact of Mosaicism and Segmentals on outcomes             |
|             | 9:15-9:45   |  | Improvement and standardization of biopsy procedures       |
|             | 9:45-10:15  |  | How to counsel around Mosaicism and Segmentals             |
|             | 10:15-10:45 |  | DISCUSSION/ DEBATE   |
| 10:45-11:15 |             | Coffee Break   |  |
| 11:15-13:00 |             | Session 6: Abstracts   | <b>15 min per each abstract x 7</b>                        |
| 13:00-14:00 |             | BREAK  | Lunch and POSTER SESSION                                   |
| 14:00-15:30 |             | Session 7: Regional Block  | <b>15 min per each abstract x 6</b>                        |
| 15:30-16:00 |             | Coffee Break   |  |
| 16:00-17:30 | 16:00-16:30 | Session 8: Prospective Carrier screening for identification of at risk PGT couples | Genetic Panels for ovarian, breast and endometrial cancers |
|             | 16:30-17:00 |  | Genetic Panels for Infertility                             |
|             | 17:00-17:30 |  | Prospective gene testing of sperm and egg donors           |

# PROPOSED AGENDA: DAY THREE

| Block       | Time        | Type                                     | Title  |
|-------------|-------------|--|--|
| 8:00-8:15   |             |  | Summary highlights from day two                              |
| 8:15-8:45   |             | Plenary lecture                          | 3 person babies  |
| 8:45-10:15  | 8:45-9:15   | Session 9: Reproductive Outcome of PGT-A | RCT PGD v1–based on FISH                                     |
|             | 9:15-9:45   |  | RCT PGD v2– Based on Next Generation Technologies            |
|             | 9:45-10:15  |  | Debate: on STAR trial  |
| 10:15-10:45 |             |  | Luteal support protocols and embryo chromosome abnormalities |
| 10:45-11:15 |             | Coffee Break                             |  |
| 11:15-12:00 |             | Session 10: Abstracts                    | <b>15 min per each abstract x 3</b>                          |
| 12:00-13:00 |             | Session 11: Regional Block               | <b>15 min per each abstract x 4</b>                          |
|             |             | BREAK                                    | Lunch and POSTER SESSION                                     |
| 14:00-15:30 | 14:00-14:30 | Session 12: Emerging Technologies.       | CRISPR-based gene editing                                    |
|             | 14:30-15:00 |  | Non invasive PGD-A using blastocell fluid                    |
|             | 15:00-15:30 |  | Non invasive PGD-A using spent medium                        |
| 15:00-15:30 |             | Late Breaking News                       | TBD based on submission                                      |
| 15:30-16:00 |             |  | Closing remarks  |
